EASTERN DATES TO NOV. 13.

EASTERN STATES.

New York News.

NEW YORK, Nov. 13.—General Sherman, Admiral Alden and Lieutenant G. Grant went down to the United States steamer *Wabash* at two o'clock to-day, when salutes were fired.

A large breadstuff and petroleum firm is reported suspended.

H. O. Cooper, clerk in the naval office is held in $30,000 bail, on a charge of having placed a cancelled stamp on the manifest of the ship *Roderick Dhu*.

The case of Gen. Jordan was argued in court to-day. It was stated that unless the government was ready to proceed early in December, a *nolle prosequi* would be entered.

M. M. Harrick, a prominent member of the Board of Exchange, is dead.

The Broadway widening assessment matter has been argued in the Supreme Court, but the decision is reserved.

The members of the Brooklyn Investigating Committee say they have evidence showing that about 4,000 fraudulent votes were cast. They are sanguine the canvassers will be compelled to give certificates to a majority of the Republican candidates on the county ticket, and the Republican candidates, including Mayor on the city ticket. The report will be ready Friday, when warrants will be issued for the arrest of ballot stuffers. Mayor Kalabelcisch professes himself satisfied that he obtained more honest votes than Powell and Booth, and will contest the right to the office.

Cholera in New York.

NEW YORK, Nov. 13.—The following is a correspondent's account of the cases at quarantine in the ship *Franklin*, of the new Baltic (Lloyd's) line, which arrived last night with a number of cases of cholera on board: She sailed from Stettin October 10, touching at Copenhagen on the 12th, and at Christiansen. At the latter port she received 22 cabin and 41 steerage passengers, having already a prow of 97 men. After she was 10 days out the first case of cholera made its appearance among the steerage passengers, and when the steamer put in to Halifax to obtain coal she had nearly 100 cases of cholera and choleric diarrhœa, of which forty proved fatal. Since leaving Halifax one death has occurred, and to-day 26 patients are suffering from cholera. They were sent to West Bank Hospital. The passengers were transferred to the U. S. steamer *Delaware*, lately fitted up as a receiving ship by quarantine authorities. The *Franklin* after the transfer of her passengers was ordered to the lower quarantine, where she will be thoroughly disinfected and detained until it is thought safe to allow her up to the city.

Repudiation in South Carolina.

CHARLESTON, Nov. 13.—The *News* prints a report of the action of a caucus of colored members of the Legislature held last week, when the caucus resolved to make no appropriations during the coming session for the payment of interest of the State debt, and declared themselves in favor of repudiation of both the old and new State debts.

From Baltimore.

BALTIMORE, Nov. 13.—In the U. S. District Court to-day in the case of J. W. Field (colored) against the Baltimore City Passenger Railroad Company, the plaintiff received $40 damages. In consequence of this decision negroes are now admitted into all the street cars in the city. Field had been ejected on account of his color.

The Missouri Railroad Disaster.

ST. LOUIS, Nov. 13.—The list of wounded by the accident on the North Missouri Railroad near Wellsville on Friday last received here contains thirty-two names. Eleven are seriously injured.

Vessel Lost.

CLEVELAND, Nov. 13.—The schooner *Juliet* sunk on Friday night off Madison, Ohio. All hands were lost except the cook.

Boston.

BOSTON, Nov. 13.—Rev. Robert Collyer is receiving liberal contributions from the Unitarians here to rebuild his church.

Ellery Daniels, defaulting cashier of the Webster National Bank, is sentenced to imprisonment for five years.

A New Haven special says Mrs. Lydia Sherman, the alleged poisoner, expresses every confidence of acquittal. The trial has gone over to the last Tuesday in December. She shows no signs of insanity, and few believe her innocent.

Additional Washington News.

WASHINGTON, Nov. 13.—The Secretary of War has issued an order dismissing from the service Cadet P. Brower, of the fourth class, for harassing a Cadet Sentinel.

Admiral Porter's health is considerably improved, and though confined to his house he is engaged on business connected with the building of the two iron torpedo boats authorized by Congress.

Caleb Cushing having formally resigned the position of United States counsel before the American and Spanish Commission, the President will soon appoint a successor.

WASHINGTON CITY.

Official Business.

WASHINGTON, Nov. 13.—Capt. Henry Clayton, of the 17th Infantry, has resigned. Maj. Geo. L. Febeger is assigned as Chief Paymaster to the Department of the Pacific, and Maj. Wm. Smith to duty in that department. Wm. R. Gibson is assigned to duty as Chief Paymaster to the Department of Texas. Maj. C. M. Terrell is ordered to report to the Chief Paymaster of the District of the Platte at Omaha. Assistant Surgeon Eli McClellan is ordered to report to the Commanding General of the Department of the South, and Asst. Herbert P. Curtis, Judge Advocate, is ordered to report to the Commanding General of the Military Division of the Pacific.

The Supreme Court of the District of Columbia in the case of Taber vs. Sherman, decided that the current of authority does not make a seat in Congress privileged from service on civil process, nor does the Constitution indicate in any way that a person is so exempt.

The Senate Committee on Finance met to-day with Senators Sherman, Fenton, Wright and Ames present. It is understood that a majority decided it inexpedient to resort to a substitute for or to act upon in any way the House bill for the abolition of duties on coal and salt. Chairman Sherman was directed to notify the Chairman of the Committee of Ways and Means when appointed, that the Finance Committee will await the announcement of the matured judgment and action of the House upon such bill as it may pass next session. This determination will not at once put an end to the present session of the Senate Committee, as they will still be under general instructions of the resolution of the Senate. There was an interchange of views looking to the adoption and report of some amendment to the tariff and internal revenue laws as contemplated by the Senate resolution.

According to the Russian programme the first visit of Alexis is to Washington, and will not extend over twenty-four hours. It will be merely for the purpose of paying respects to the President and Cabinet, who will in a body welcome him to the executive mansion. He will receive no visitors during his brief sojourn, or receive any cards.

The Supreme Court, in the case of Alexander vs Rodriguez, reversed the judgment of the Circuit Court of California, and the lands in question are awarded to the appellant, who mortgaged them with power to redeem it. In the case of Perrin, against the United States, judgment of the Court of claims was affirmed, and dismissed for want of judgment, the petition of French suitors for the recovery of damages by the destruction of property during the bombardment of Greytown in 1854.

New York Money Report.

NEW YORK, Nov. 13.—Gold steady, 111¼@111¾; sterling 8½. Goods firm. Stocks strong. The Pacific is the most active, closing at 48; Western Union Telegraph, 85½; Wells, Fargo & Co., 53; Pacific Mail, 47½.

Fire in Canada.

PERTH, Nov. 13.—The Ontario Concentrated Tanning Works were burned Saturday. Loss $20,000.

BY ATLANTIC CABLE.

London Dispatches.

LONDON, Nov. 13.—A fearful explosion by gas occurred to-day at Ledes. Ode or two persons were killed and several badly injured.

The Queen's physician announces that Her Majesty's health is improving.

Commodore Ashbury, the owner of the *Livonia*, arrived on Saturday. He renounces all intention of contending again for the Queen's cup in American waters, and says that he is going to India next year.

NEW YORK, Nov. 13.—Telegrams from London report that the settlement of the new United States loan is progressing favorably, and the discount thereon advanced to 12@12½ per cent. Money was easy in open market at 3 per cent.

From Ireland.

CORK, Nov. 13.—The friends of Kelly, acquitted of the murder of head constable Talbot, had a procession yesterday, with other demonstrations in honor of the event. The proceedings were orderly and the police did not interfere.

Pigott, the proprietor of the *Dublin Irishman*, is sentenced to imprisonment for six months, for publishing articles of an inflammatory character in that journal during the trial of Kelly for the alleged murder of constable Talbot.

French Affairs.

PARIS, Nov. 13.—The Courts Martial are rapidly disposing of the Communists. Of the accused who have been tried, numbering 10,645, 78 have been sentenced to various periods of punishment.

Count Keratory has been appointed Prefect of Marseilles.

Gambetta has completely recovered from his severe attack of illness and will soon visit Marseilles, Bordeaux and Lyons.

Rents 55 francs 87 centimes.

LONDON, Nov. 13.—A formidable plot of Bonapartist Generals, headed by Fleury, to arrest Thiers and proclaim the Empire, has been discovered. The plotter's papers are in the possession of Thiers, who is confident of the failure of the conspiracy.

The ship *Escort*, of New York, took fire and was destroyed at Antwerp yesterday.

CURRENT NOTES.

New York claims at noon on a week day to have 1,400,000 population.

The Government has received one hundred samples of paper manufactured in Japan, mostly of the rich fibre. It will be deposited in the Patent Office.

An iron quadrangular bridge, like that at Hannibal, is being erected across the Missouri river at St. Joseph, Missouri. It will be 1,300 feet long, exclusive of approaches.

New York is not alone in its Tammany ring. Alexander Delmar pronounces the debt of Brooklyn $30,000,000, and the interest charge $2,500,000, "the ring in full swing," "the city insolvent," etc.

Rev. Joel S. Edwards, a Methodist Minister of Marshalltown, Wisconsin, has been notified that an English estate, worth over $80,000,000, which Mr. Edwards' grandfather leased to the crown for 99 years in 1772, is now legally the property of himself and 34 others.

There will be woe in the White House if the Lynchburg *Virginian* ever passes its portals; for, alluding to the President's Thanksgiving Proclamation, the pitiless journal mercilessly says: "As for us, we shall neither publish the forthcoming proclamation, nor treat it with any consideration after it shall have been issued."

Beverly Tucker, an agent of the Southern Confederacy in Canada, and a confidant of J. Wilkes Booth in his assassination schemes, has been keeping a hotel at the St. Catharine watering place since the war, until the other day, when he departed with $25,000 due his creditors, and nothing left to indicate the direction he took.

The notorious outlaw, Joe Parker, was lately captured at Mount Pleasant, Texas. He was shot, and thinking himself dying, gasped, "Boys, you have killed the bravest man in Texas." He then confessed to nine murders, whereupon his captors contemptuously lodged him in jail, disgusted that a Texan outlaw whom they had admiringly credited with the killing of 60 or 70 people, should only own up to nine.

During the season just closed, the visitors to Yosemite Valley numbered 2,138. The following is the number of persons who visited that famous locality each year, since 1864, when J. W. Hutchings took up his abode there: 1864, 157; 1865, 237; 1866, 393; 1867, 623; 1868, 400; 1869, 1,122; 1870, 1,735; 1871, 2,138. Total, 6,085. At least 75 per cent. of this number were sightseers from the Eastern States and other portions of the world outside of California.

POLITICAL NOTES.

Not a Democrat was elected in Westchester county, New York, an old Democratic stronghold.

In the New York Legislature the Republicans have about ten more than two-thirds of the members.

The St. Louis *Democrat* confidently predicts President Grant's re-election in 1872 by a majority more overwhelming than he received in 1868.

In the September election in California, Booth carried 23 and Haight 27 counties. Booth's official majority was 5,001. Springer, for State Printer, had the largest majority, 5,607; and Love, for Attorney General, the lowest, 3,565.

Following was the vote of the city of New York: Secretary of State, Waters (Dem.), 82,024; Scribner (Rep.), 54,115; Register, Sigel (Reform), 80,671; Chandler (Dem.), 55,770. Supreme Court Judge, Barrett (Reform), 76,591; Ledwith (Dem.), 54,787. Superior Court Judge, Curtis (Reform), 79,141; Jones (Dem.), 57,270.

A New York dispatch of the 9th says: General Barlow, the newly elected Attorney General of the State, says criminal proceedings will be immediately commenced against every man implicated in the city frauds. He says, further, that we can easily rid ourselves of all corrupt officials. The Mayor, the Commissioners of the different Bureaus, the Judges of the city inferior Courts and Judges of the higher Courts will be reached by impeachment. The new city charter will be repealed and a new election ordered.

The St. Louis *Democrat* continues to give encouraging reports of the prospects of Republican union in Missouri. In its issue of a recent date it says: "In this State the sole question that divided us, the local one of re-enfranchisement, was settled by the consummation of that measure. Nothing now divides Republicans of this State, save the disappointment that may have come to a few mistaken individuals of the Schurz kind, who will amount to little or nothing when the final balance of party success is struck. The people of Missouri have abundantly proved that they are for the progressive party of the nation, and for placing and keeping their imperial commonwealth in the rank of the progressive Republican States."

NOT IN THE BILL.—In Marinee City, Michigan, the other day, a young man was walking out with some young ladies, when he found a small frog, and holding it in the palm of his hand, brought it near his mouth, which he opened wide. The juvenile crowd seeing what appeared to be a place of refuge, gave a jump into the cave. The young man looked very red in the face, and the ladies looked down in the mouth, but the frog has never been seen from that day to this.

IMPORTANT TO TOPERS.—The French journals say that the Parisians are jubilant over the late discovery of Dr. Bernise, for the relief of red noses. By means of electricity he has restored a lady of rank to happiness, and her nose, a blooming rose, into a delicate lily.

THE LOS ANGELES HORROR.

GRAND JURY IMPANNELED.—IMPRESSIVE CHARGE BY JUDGE REPULVEDA.

On the 9th inst. the Grand Jury at Los Angeles was impanneled. Following is the Judge's charge in relation to the recent frightful massacre of Chinese:

Gentlemen of the Grand Jury:—Lawlessness has again raised its monster head in our midst, and in the most inhuman manner has satisfied its barbarous instincts. The scenes enacted on the evening of the 24th of October, when eighteen human beings were mercilessly murdered by a mob, have sent a thrill of horror through the State, and a page is marked in the record of Los Angeles forever indelible, and making the name of this community a reproach to humanity and civilization. After the hanging of Lacherois nearly a year ago, I took occasion to charge the Grand Jury with reference to mob violence, and made use of the following language: "By your speedy, vigorous and legal action you will impress upon men the belief that their safety and happiness greatly depend in yielding obedience to the laws of the land and in having due respect for constitutional authority; that the violation of law only entails to us injustice, cruelty, dissension, anarchy and immorality." That Grand Jury saw fit not to act in the matter. Will you do likewise in this instance? Weigh the bitter consequences that follow impunity; will you challenge the vengeance of Divinity by violating your oath? Shall law stand for naught and immorality and crime have high carnival in our community? I cannot believe that, in the presence of the enormities committed, you can remain indifferent. It is not possible that moral apathy can go so far. Remember, gentlemen, the accountability you owe to society—not and but true to your manhood, morality and to mankind. You must indict all who, after the hearing of legal evidence, you consider as deserving punishment for crimes committed within the county. Set an example of true courage in the performance of your duty. Be faithful to your trust. In this way only can you satisfy an offended God, violated law and outraged humanity.

Chicago Lost Literary Wealth.

[From the New York Tribune.]

Chicago was the great literary emporium of the Northwest. The entire book trade of the city, including that small portion of the stationery trade which was

The Daily Oregonian.

FRIDAY MORNING, NOV. 17, 1871.

Hot as it should Be.

We are boasting this year of a good deal of enterprise in Oregon, and in agriculture our industry is said to have done remarkably well. But how does this boast agree with the fact that there are now but very meager supplies of oats, hay, beans, butter, potatoes, and other leading agricultural products in the State, and that we are importing large quantities of most of these articles from California?

The ship *Windward* is on the way from San Francisco to Portland with a cargo of oats. That is, California is sending to agricultural Oregon, and selling here at high prices, a cereal which grows in great perfection in our fields, and yields enormous harvests,—that is as it grows finely and yields well when it is cultivated. But wheat has been all the rage, and we of Oregon can think of but one thing at a time. The consequence is that we are exporting wheat and importing oats and potatoes, paying for the latter almost as much per bushel as we get for the former, though it is easier to raise two bushels of oats or potatoes than one of wheat.

In this matter Oregon is at a disadvantage, intelligence and industry can easily correct. It is absolutely ridiculous for Oregon to be compelled to import oats and potatoes from California. It is not sufficient simply to raise great crops of wheat, the minor details of agriculture should be attended to. When they are neglected even the profits of a good wheat crop are frittered away. There has been pretty much the same neglect all over Oregon. We are told that in Umpqua valley potatoes are so very scarce that they are worth much more than wheat, and doubtless if the railroad is completed by next spring to Oakland, potatoes from California will be shipped in there, paying transportation for one thousand miles. Throughout Wallamet valley potatoes are almost equally scarce, and good hay can hardly be had in considerable quantities at any price. It is true that the season was not very favorable for such crops as these, but under a proper system of agriculture there would be nothing like failure. The old careless and unsystematic way of doing things must be abandoned. Oregon now has opportunities for progress and prosperity, and it is time she had outgrown the improvident habits of the "Cayuse" period.

National Insurance Convention.

A National Insurance Convention has just been held at New York City. The New York *Evening Mail*, in giving an account of its proceedings, says that under the stimulus of the disastrous Chicago experience, the delegates addressed themselves with genuine enthusiasm to the work of establishing the insurance interest upon stable foundations and relieving it from the many embarrassments, and especially the speculative tendencies and irregularities, which have grown up during the last few years. Among other things, the Convention agreed upon a general insurance statute, embodying the ripest conclusions of the most sagacious insurance men, which will be recommended to the Legislatures of all the States as a substitute for the existing crude and conflicting laws. As things now are, no two States have the same laws on this subject; many, in fact, have only shreds and patches of statutes, imposing no real restraint upon the business in any of its branches, and the result is, inevitably, as has been seen in recent cases developed by the Chicago calamity, that policy-holders have, very frequently, no protection whatever against practices destructive of all security. Where there is no supervision of the business of every corporation engaged in issuing policies, there can be no possible assurance of safety on the part of the public. The Convention, therefore, in proposing a general law, applicable to all States alike which shall expose all companies to close inspection and require them, everywhere, to conform to sound business standards as to capital, investments, securities, the amount of risk to be carried, etc., has taken a step which must result in immense benefit to the community at large.

Another important act of the Convention in the same direction is also noted by the *Evening Mail*. This looks to the establishment of greatly needed precautions against bogus insurance speculations. One great source of loss to the insurance interest hitherto has been the headlong pursuit of business by irresponsible agents of "wild cat" corporations. Of course no company doing a legitimate business can compete with agencies which, representing obscure and worthless corporations, never hesitate to take the most hazardous risks at any rate they can obtain. Under the policy now agreed upon by the representatives of the insurance interest, in the country at large, it is fair to presume that a check will be put upon these illegitimate and speculative proceedings, and that the sharks which have so long preyed upon an unsuspecting public as solicitors and agents for bankrupt concerns will be driven to earn their bread in some more honest pursuit.

The Convention, before its adjournment, adopted a permanent organization under the name of the "National Insurance Convention of the United States," with permanent officers, a bureau in New York and annual meetings. A distinct individualism of character and a definite head is thus given to this great interest; in other words, the insurance business in this country will henceforth be governed and regulated like any other commercial or financial interest, by positive laws, instead of being left to the vague uncertainties and caprices which have heretofore influenced and governed it.

The Northern Pacific surveying party recently engaged in locating the line of the road from the mouth of the Heart River in Dacotah to the Yellowstone Valley, has returned to Fort Rice in Minnesota. The engineer in charge reports that he has found an excellent and very direct line striking the Yellowstone at the mouth of Gilmore River Creek. He also reports finding coal in abundance along the surveyed line from the head of Heart River to the Yellowstone crossing, the valleys well timbered and well watered, and good soil. Work is now in progress on the Northern Pacific Road in Dacotah, west of Red River.

The Indianapolis *Sentinel*, the principal Democratic organ of Indiana, does not approve of the "no nomination nonsense" for the next Presidential campaign. In a recent issue it said: "Even if the Democracy should not be able to carry the next Presidential election, yet by maintaining its organization intact, and contending earnestly for the principles and policy that it believes to be for the true interests of the nation, and the welfare of the people, it can retain an influence in the direction of public affairs, and what should not be lost sight of, maintaining its self-respect as well as the respect of its opponents."

Letter from Eugene City.

EUGENE CITY, Nov. 13, 1871.

TO THE EDITOR OF THE OREGONIAN:

Winter has "set in" with its usual vigor, which has had the effect of sending a lively crew 'round the corners in this place, heretofore usually so quiet.

THE RAILROAD has got to be an "old thing," everybody from far and near having had the opportunity of seeing the locomotive with its train. Some are satisfied that it is a "bill," for the reason that it will dispense with their time-honored hickory-spoked apple-carts; others that it tears up the ground too much. There are numbers of the latter opinion, judging from the number of suits now pending in the Circuit Court, in which outrage is claimed on their donation rights. We opine, however, from the poor success of one or two cases tested before a jury, that there will be a general willingness henceforth to accept the very liberal offers for damages of the Oregon and California Railroad Company. We are not entirely certain that the Swamp Land Commissioner will not institute suit against the company for damages in draining valuable swamp lands that he has already "secured." Notwithstanding all of the flank movements, the road goes right ahead, the track now reaching Creswell, a prospecting town twelve or fourteen miles south of this place.

A NEW FEATURE.

This city has been "struck" as with a stroke of frictional electricity. A rent five "hurdy-gurdy" house opened out loud and plain on a prominent street last Saturday night. An immense crowd was present at the dedicatory exercises. Old men and young men, men of all standing (and some sitting down), boys with beards and beardless boys were there, all curious to see the thing in motion. This we only mention to show the large individuality developed in the heads of the masculines of Eugene. There is no optical illusion in seeing Eugene trying to put on city airs. It is said that caterpillars in the course of a month devour sixty thousand times their weight of aliment. We do not expect a source of revenue by any such stomach fotes of these sisters of soiled virtue, but we do expect that they will devour about that proportion of their worth of currency. In view of the sixty thousand dollars worth of railroad bonds Eugene has taken, it is appalling to think of the "god of mammon's" being so squandered. G.

"Our Government," says the *Herald*, "used to be strong in the affections of the people,"—implying by this language that it is not so now. If the Democratic party really doubts whether the Government has any hold on the affections of the people, let it rebel again. The Government has always been hated by that party when it could not control it, and it has always tried to pull down and destroy when it could not bear rule. Unless that party is in power the country has no place in its affections, and it would rather see the Government destroyed than not. This is its history. Such a fact would be incredible did it not appear in almost every page of the political history of the country.

The destruction of the Arctic whaling fleet invests with interest the statistics of the country concerning this industry. The Register of the Treasury makes the following statement in regard to the whale fishery of the United States: In 1868, there were 323 vessels; in 1863, 311 vessels; in 1870, 293 vessels; in 1871, 249 vessels. There appears to be a gradual diminution in this once important national industry, due to the discovery of petroleum and the manufacture of coal oil. The whaling vessels of the country are entirely owned at eight ports, namely: New Bedford, 187 vessels; New London, 22; Barnstable, 20; Edgartown, 5; Salem, 5; Nantucket, 5; San Francisco, 3; and Sag Harbor, 3.

THE OLD DEMOCRATIC "CARRY-ALL."—Carl Schurz's eloquent appeals to the Western and Southern Democrats to abandon their old party wreck and try a new and more liberal organization with the anti-Grant Republicans calls out this response from the Louisville *Courier-Journal*, which, speaking in parable, thus discourseth:

For all its age and battered condition, the old Democratic carry-all is still a vehicle. It ain't much for show. It ain't a fine and stylish vehicle. It ain't a gilt-edged chariot, but it'll go. It has wheels and a tongue, and if we could get a couple of good wheelhorses and stop the mouth of that infernal old baby down there in Georgia, we think there is some safe traveling in it even as it is. At all events, we see no other vehicle in sight except our little friend, Grant's new-fangled conch-and-six, with the bob-tail ponies, and that doesn't suit us. Therefore, we don't mean to get out of our carry-all and take it afoot over an unknown country. Nor can we stop to help Carl Schurz make a new vehicle. We do not pretend to say that he will fail. We do not promise that his vehicle will not be stout and safe. We don't even know but that we shall be glad enough to be taken into it in case our old carry-all breaks down. But, for the present, it seems to us best to stick to the cussed old critter, and to try and make it do. We'll take our chance at a run-and-jump if Carl Schurz's new dog catches up and is likely to get too far ahead of us. That old Georgia baby is a mighty nuisance, and we have two or three big brats here in Kentucky that keep up more noise than there's any use for. But when we get the horses hitched and started, and the old carry-all begins to rattle along as if the wild cats were after it, they'll shut up like little men. So here's luck to Schurz—for we wish him well—and here's confusion to the coach-and-six with the bob-tailed ponies—and here's our best endeavors for the old carry-all, till it breaks down or goes to smash!

"A-shoutin' the happy land of Canaan!"

STRANGE WORK.—A merchant in Manchester, England, recently wanted 1,500 pieces of printed calico, of a particular pattern, for shipment to America. At five o'clock one evening he went to Harpeney, three miles from Manchester, to see a cotton printer, who undertook to print the 1,500 pieces in three colors, and to have them packed in cases ready for shipment by noon on the following day. This was done, and at three o'clock the goods were on board a steamer, going down the Mersey on her way to New York.

The Norwich *Bulletin* says: A well-known Justice of the Peace subscribed $5 to the relief fund yesterday, and, returning to his office immediately, received the amount for marrying a couple. Thus is virtue rewarded. Another man was requested to contribute, but declined, and within two hours heard that his mother-in-law had come to stay a month with him. Can any one hesitate which course to pursue?

A philosopher hath said; He who is passionate and hasty is generally honest. It is your cold dissembling hypocrite you should beware of. There's no deception in a bull dog. It is only the cur that sneaks up and bites you when your back is turned.

PERKINS & HOUSE'S SAFETY LAMPS

It is perfectly non-explosive. The light is better than is produced by any other lamp. I believe it to be true economy in view of the safety, the quality and quantity of the light produced, and the durability of this lamp, to throw away all other kinds and use this only.

PROF. W. S. CLARK,

I know it to be by far the best light we have ever used in our family. I know of nothing that can compare with it. I prefer it to any gas burner I have ever seen. For safety, for economy, and for the perfection of the light, it deserves to come into universal use.

"The work goes bravely on." Case No. 6,230—Second series.

CITY JAIL, PORTLAND, Oregon,
June 7, 1871.

A. M. LOETER & Co.: I was attacked with a severe case of rheumatism. It was in my thighs, hips, fingers, shoulder-blade—indeed in all the joints of my body. I suffered great pain and anguish. I was attended by a regular physician, but with no effect. I was induced to try your Uva Weed Remedy, and it immediately cured me up. I consider it, from my experience, the best remedy for rheumatism known.

TESTIMONIAL.

We the undersigned having been the recipients of the services of Mrs. M. C. White in teaching the science of Music on the Pianoforte, take pleasure in giving a hearty testimonial that we have employed her in our families as a teacher of her "New Method of Instruction," and that it has proved superior to any method we have ever known; and that although the first cost may be a trifle greater than some others, we believe it to be in the aggregate much cheaper, besides being a great economy in point of time. We, therefore, take pleasure in recommending her to the patronage of all who may be desirous of obtaining a musical education, as a very superior instructor.

To those who desire to know more about it before increasing any expense, we give a cordial invitation to call at our homes and interview her pupils.

Ordinance No. 1108.

AN ORDINANCE TO REGULATE THE STORAGE and sale of Gunpowder, and other explosive materials.

The City of Portland does ordain as follows:

Section 1. No person shall keep or offer for sale any gunpowder in any building, store or place in the City of Portland, without having first obtained a license therefor.

Section 2. The license for selling gunpowder shall be five dollars per quarter, to be issued as other licenses are issued, under the provisions of Ordinance 934, entitled "An Ordinance to impose and regulate licenses in the City of Portland."

Section 3. No person shall receive, keep or store, or allow assist any person in receiving, keeping or storing, gunpowder, in a larger quantity than five pounds, in or into any building, or upon any premises, unless the person receiving, keeping or storing the same is duly licensed to sell gunpowder.

Section 4. No person or persons duly authorized to sell gunpowder, as hereinbefore provided, shall keep, store, or have in any one place, more than twenty-five pounds of gunpowder, which shall be kept in an air-tight, metallic vessel marked with the word "Gunpowder," in plain Roman letters, not less than three inches in height and of proportionate width, which vessel shall be placed, or kept, at all times, conspicuously in view near the entrance to the premises where kept, and convenient for removal therefrom.

Section 5. Upon the front of every building or premises where powder is kept, there shall be kept in a conspicuous place a sign with the word "Gunpowder" printed thereon in Roman letters, not less than three inches in height.

Section 6. No person shall convey, cause to be conveyed, or assist in conveying in any vehicle any gunpowder, unless the same shall be securely packed in close packages, nor unless such packages shall be securely carried while in or on the vehicle.

Section 7. No vessel shall be allowed to remain at any wharf more than twenty-four hours with gunpowder on board, except such as may be kept for ship's use, and if such vessel shall be at the wharf over night, a watchman shall be kept on duty on board all night. All gunpowder landed or placed on any wharf, sidewalk, street or public way for forwarding or shipment shall be forwarded or shipped immediately after it shall be so landed or placed.

Section 8. The provisions of this Ordinance shall be deemed to apply to "Giant Powder," "gun cotton" or any other explosive substance having an explosive power or equal to that of ordinary gunpowder.

Section 9. Any person or persons violating any of the provisions of this Ordinance, shall be deemed guilty of a misdemeanor and on conviction before the Police Judge, shall be fined not less than ten nor more than one hundred dollars, or by imprisonment in the city jail not less than ten nor more than twenty days, or both, at the discretion of the Police Judge.

Section 10. The officers of the Fire Department and Police are directed to see that the provisions of this ordinance are enforced and to make complaint before the Police Judge, for the violation of its provisions.

Section 11. All ordinances or parts of ordinances conflicting herewith are hereby repealed.

FRIDAY MORNING, NOV. 17, 1871.

CITY.

ABOUT THE JOHN L. STEPHENS.—This steamship was the show of the town yesterday. Hundreds of people who had seen her often before without a thought of wonder, went yesterday and gazed at her as a real sensation—and all because she had just been in a terrible storm, had had her wheel houses and parts of her guards knocked into splinters, and yet had obstinately neglected to go to pieces in conformity with the predictions of a lot of knowing croakers. As a general thing the verdict of the sight-seers was "Looks pretty rough, don't she?" To which was generally replied with a wag of the head, "You bet." Then the questioner and the questioned generally agreed that she must be rather a staunch vessel after all to go through such a storm! This point being settled the wonderers would fall back and give place to new crowds. Thus it was during most of the day. We understand there was an official examination of the hull during the day, the result of which, however, we did not learn. It does not appear that she leaked at all during the passage, or that she was at all strained. Her copper sheathing which, on a vessel, is an unfailing indication in this regard, is as smooth as ever. Some water from the breaking seas went down her hatchways, and some of the goods between decks were damaged—to what extent we could not ascertain. The steerage, during the storm, was pretty well drowned out, and the passengers had to be transferred to the cabin, where they slept on shake-downs, blankets or whatever convenience could be improvised. Everything possible was done to make the passengers comfortable, though, after all, they had a rather sorry time of it. For forty-eight hours nothing could be cooked, and but one attempt was made—an unsuccessful one. One man attached to the vessel informed us that he had followed the sea from boyhood—he looked 55 years—and had never experienced what he thought greater peril. The passengers are united in two things—first, that such a time never was before," and second, that the Captain and officers are particularly competent sailors.

A BURGLARIOUS RAID.—A passenger by the down express train of yesterday, informs us that a merchant at Gervais by the name of Robert Hanna got up yesterday morning and found his store had been burglarized during the preceding night. The artist had first attempted to gain entrance to the building by crawling under the floor and raising the planks; but that proceeding difficult, he crawled out again, bored a hole through a panel of the front door, thrust his arm through, and admitted himself by turning the key which had been left in the lock. Having got in the burglar or burglars (probably two of them) selected a couple of suits of beaver cloth, two guns, one belonging to Mr. A. J. Hablor, a case of pocket knives and a lot of hair oil. The stealing of the latter article leads to the conclusion that the thief is going for to be charming dude, and that he merely took the guns because it is understood that going for ducks without fire, arms is not the way to do it. The key of the safe which was on the same ring with several other keys and hid in a box, was carried off. Mr. Hanna, therefore, had no means of opening the safe, and could not tell when our informant left whether or not it had been burglarized also. Suspicion fell upon a half breed who had been recently released from the Penitentiary, and who was seen at Gervais the night before.

IMPORTED THOROUGHBRED SHEEP.—Messrs. Cameron & Goodwyn arrived by the *John L. Stephens* with fifty head of sheep of the Leicester breed, from New Zealand. They are the same gentlemen who, last July, brought here eight head of the same breed and sold them to Mr. S. C. Reed, for a round sum. This latter flock consists of 38 bucks and 12 ewes, each about ten or eleven months old. They were purchased of the New Zealand and Australian Land Co. They are the direct progeny of imported sheep selected from Lord Palsarth's and other celebrated flocks in Scotland and were taken from the stud flock of Leicesters on the Clydevale run, said to be the best in New Zealand, their wool fetching the highest price in the London market. Messrs. Cameron & Goodwyn showed us last evening a large number of specimens of the wool taken from these lambs since their voyage. The wool is not so fine as that from our Merino sheep, yet much finer than the Cotswold, and quite as long as or longer than the latter, of exceedingly fine lustre and of great strength. It is said that the experiment of grading these sheep with the finer wooled breeds, in New Zealand and Australia has resulted very satisfactorily. The flock in question is, at present at the Union Stables, on First street in this city.

NOT AN OREGON FLAT.—Some time ago a sword-fish—probably from California waters—undertook to go through the *Webfoot*, one of the barks lolling to and from this port. The bark still lives, in tolerably healthy condition; the fate of the fish is not reported further than that he left with the *Webfoot* the principal part of his burglarious tool. The San Francisco *Bulletin* of the 9th says of the circumstance: "The barkentine *Webfoot*, plying between this city and Portland, was taken up on Oceanic Dry Dock a day or two since, for repairs; and particularly to find a leak which started some months ago without any apparent cause. To-day, Capt. Gage showed us the sword of a sword fish, which had been run clear through the outer planking of the ship and nearly nine inches beyond. The sword, as broken off, measures 14 inches in length, and looks much like a huge bowie knife. The sword-fish evidently supposed that it had encountered a whale and had a 'dead sure thing' on him. The master has found out what ailed the *Webfoot*, but has the sword-fish found out just what is the matter?"

MUSICAL SOCIETY.—At a meeting of members of the M. E. Church in East Portland, held on Monday evening, November 13, 1871, a Society was organized for the purpose of improving the musical exercises connected with the Church and Sabbath-school. The Society will meet for practice at the Church on Friday evening of each week, at 7 o'clock. All members of the Church are cordially invited to meet with and become members of the Society. So says the *Advocate*.

IN CONVENTION AGAIN.—The *New Northwest* of to-day's date, but issued from the press last evening, speaking of the Woman Suffrage Association organized at Oro Fino the other day, says: "As we go to press a called meeting is in progress, of which we shall give full particulars in the next issue." So it seems, this time the Convention, or Association it is now, holds a called meeting without giving the reporters a chance. Why is this thusly?

PAINFUL ACCIDENT.—During Wednesday evening Judge Deady had occasion to apply a lotion to his eyes. By mistake, however, he applied the wash from a bottle containing a strong acid, and one of his eyes was so much injured as to require immediate medical aid. We are pleased to hear, however, that last evening his eye was much better.

FINE STOCK COMING.—We hear that Mr. S. G. Reed, of this city, who has been for some time East, will be up on the next steamer from San Francisco, with a lot of fine blooded horses, cattle, sheep, etc., which he purchased at the East to stock his farm in Yamhill.

"HIGH OLD ARCHES.—The "Willamet" Iron Works is turning out a lot of cast iron arches for Capt. Ankeny's market house. They are semi-circular, upon a radius of five feet, and will surmount door ways ten feet wide. They weigh each about 2,500 pounds.

WHEAT IN STORE.—A gentleman who lives at Hillsboro, estimates that there are not less than 50,000 bushels of wheat in store in that immediate vicinity, awaiting the completion of the railroad. It will be immediately sent forward when the cars begin to run.

FIRE ALARM—NO HARM.—There was a fire alarm last evening, and the boys turned out with their machines, ran up First street till they got tired of it and then turned round and housed their engines, no fire having been found and no harm done.

GIVE THE PRISONERS A CHANCE.—Five of the city prisoners were out yesterday afternoon, engaged in scavenger work. Just now, if the prisoners were worked on the street crossings, it would be quite satisfactory to all pedestrians.

SCHOOL DISTRICT NO. 1.—The total valuation of property in this District, upon which taxes for school purposes will be raised, has been ascertained to be $6,035,525. The total school tax on this will be $21,124 33‡.

WORK OF THE GRAND JURY.—The Prosecuting Attorney informed us last evening that the grand jury had thus far found five indictments. We do not, of course, know who are the indicted parties.

THE PRIZE ESSAY ON OREGON.

PETITION OF THE REAL ESTATE AGENTS.

The following is the petition of the real estate agents, presented to the Council Wednesday evening:

To the Honorable, the Mayor and Common Council of the City of Portland: We, the undersigned representatives of the association of Real Estate agents of this city would most respectfully represent to your honorable body that we have recently paid the sum of three hundred dollars for two prize essays descriptive of the natural resources of the State of Oregon and the inducements it holds out to the industrious and deserving immigrant from other States and countries. These essays were selected from a large number of contributions on this subject, by a committee of the leading citizens of the State; and it is confidently believed that their publication and extensive circulation in pamphlet form will not only largely contribute to the wealth and prosperity of this city and State, but is now actually demanded, to keep up and increase the already awakened interest in the State well known to exist in the Atlantic States and European countries.

That the circulation of such a pamphlet in the populous States and cities of the East will prove a great benefit to this city and State, there can be no doubt. Other States, territories and cities resort to such means, and push their interests and advantages on the notice of the public by every manner of pamphlet, circular, map and advertisement; and if Portland and Oregon would not fall behind in the race for prosperity and wealth, we must make known our interests in this way. In our business capacity and relations we have circulated thousands upon thousands of circulars, maps of Portland and Oregon, journals, papers and advertisements of every description, all of which have been largely devoted to an explanation of the advantages of this city and State; and we have paid all the expenses of printing, postage, &c., out of our own private purses. We have now exhausted our stock of printed matter appropriated to this object, and have no means of furnishing any full and satisfactory information in reply to the hundreds of letters we are daily receiving asking us "all about Portland and Oregon." We are not more interested peculiarly in the growth and development of the city and State than other citizens, and we submit that we ought not to bear the whole burden of advertising Oregon.

Every immigrant that comes to Oregon becomes a customer to Portland merchants and manufacturers; and he at once becomes a consumer of our products and a producer of our wealth. It would probably be more just that the State should pay the expense of this work; but there is no law authorizing it. But it will be advantageous for Portland to do so. This is the principal city—the emporium and metropolis. Let us show the whole State that we are deserving of its friendship and patronage, and that in the growth and prosperity of this city the State has just reason for pride and cause for favorable legislation to our interests.

We therefore propose to your honorable body that you appropriate such sum of money as shall be necessary—say one thousand dollars—to secure the printing in good style of fifteen thousand copies of these prize essays; and we will then pay all the expenses and do all the labor in the proper circulation of the pamphlets in the Eastern States. All of which is respectfully submitted.

RELIGIOUS INTELLIGENCE.

PERSONAL, LOCAL AND GENERAL.

[From the Advocate.]

Rev. I. D. Driver, Agent of the American Bible Society, will preach at the Hall street M. E. Church on Sabbath evening next at 7 o'clock.

The A. M. E. Zion Church is still without a stated pastor, but preaching may be expected every Sabbath evening at 7 o'clock until further notice.

The Oregon Presbytery of the Cumberland Presbyterian Church held a very pleasant and harmonious session at McMinnville, Nov. 1st.

A special meeting for the promotion of holiness will be held at the Hall street M. E. Church tomorrow (Friday) evening, commencing at 7 o'clock. All interested in the subject are invited to attend.

Revs. A. F. Waller and C. C. Stratton, Agents for the Willamette University, have been in Southern Oregon lecturing and laboring in behalf of the important institution whose interests they represent.

The proceeds of the vocal concert at the M. E. Church on Wednesday evening of last week—about $100—were applied to the purchase of a first-class, double reed, five octave, six stop, Burdett organ.

The new church edifice of the Cumberland Presbyterian Church, erected at Salem, will be dedicated on the 26th inst. Rev. Neill Johnson will preach the dedicatory sermon, and Rev. T. H. Small offer the prayer.

The members of the Evangelical Lutheran Church of this city, are now making arrangements to hold a Fair at the Armory Hall, commencing December 12th, and continuing during the week. The proceeds are to be applied toward the liquidation of the Church debt.

LOCAL BREVITIES.

A boy named Taylor played carelessly with a pistol on Wednesday, and now the doctor thinks he can save two fingers of the boy's left hand.

Forty-six members of the Hall street Sunday School have signed the temperance roll of honor.

The Portland Academy and Female Seminary opened this week with sixty students.

Great preparations are in progress for the children's fair to be held next Wednesday evening at the M. E. Church.

The steamer *Wenat* has commenced making trips again on the Cowlitz river to Pumphrey's.

Israel L. Clark will preach in the Court House on Sunday next at 11 o'clock A. M. Can't tell what persuasion he's of.

Five aborigines were up in the Police Court yesterday morning and sent to jail ten days for being an drunk as a white man.

Wrestling Joe is too ill to come to time yet, and the perjury case is in statu quo—which means, it don't go.

The *Advocate* goes for the Portland, Dalles and Salt Lake Railroad on the ground that it will be a "Christianizer."

The Grand Jury in the Foster case has not yet concluded the examination of witnesses, though they have been at it two days.

SHIPPING.—There were at Astoria yesterday morning the barks *Garibaldi*, bound for China; the *Jane A. Falkinburg*, for Honolulu; and *Amelia*, for San Francisco. They will, probably, all cross the bar to day. The steamship *Ajax* for San Francisco, went to sea Wednesday evening.

IMPROVED TIME.—The semi-weekly Eastern paper mail, by way of the Dalles, arrived last evening, one day sooner than usual.

EAST PORTLAND.

[From the Democratic Era.]

The *Era* is out in favor of a fire department for East Portland.

The U street ferry boat made several trips on Wednesday. It is owned by Lawrence & Jones.

The editor of the *Era* has got a bible bearing date 1612, which he believes to be the oldest publication in Oregon.

Messrs. Douglas & Co., evidently at great expense to themselves, have constructed a plank roadway connecting the ferry landing with L street. Heavily loaded teams can now reach the street from the ferry with all ease, and pedestrians with dry feet. The only thing now necessary to render it one of the best landings on the river, is a ferry house, where passengers this winter can go in out of the wet while waiting for the boat.

A WORD TO THE WISE IS SUFFICIENT.—Be it known to the People of Portland and the surrounding country, that at the exclusive clothing establishment of Kohn & Fichel, 91 Front street, they are selling new and stylish suits for Fall and Winter wear at prices that are astonishingly low. Call at this House and examine the large stock of Clothing and Furnishing Goods. You will come away satisfied.

THE FINAL REPORT OF THE U. S. GRAND JURY has not been made, but all sorts of rumors are prevalent, and one especially, affecting the business prospects of one of our most enterprising merchants. It is currently reported that at a special meeting of the Jurors a sort of love feast was had; and each told his experiences and of the things he had seen in Portland. The general impression was, that so far as their outward appearances were concerned, they could not be better improved than by donning some of the fashionably cut clothing for sale at Ramaley's. It was therefore unanimously resolved that all purchases of clothing and goods furnishing goods be made at the above named establishment, corner of Washington and Front streets.

VALUABLE AND RELIABLE.—"Brown's Bronchial Troches" will be found invaluable to those exposed to sudden changes, affording prompt relief in cases of Coughs, Colds, etc. For Public Speakers and Singers and those who over-tax the voice, they are useful in relieving an Irritated Throat, and will render articulation easy. *As there are imitations, be sure to obtain the genuine.*

What Dyspepsia may End In.

Indigestion is not dangerous say the faculty. Perhaps not in itself, while it remains mere indigestion; but look at the consequences to which it may lead, and often does end when it becomes a chronic disease. A spark of fire is a small thing. A pressure of the foot will put it out; a breath will extinguish it. Yet it may fire a powder mill, or kindle a flame that will consume a city. In like manner indigestion may produce gastritis, cancer of the stomach, congestion of the bowels, apoplexy, liver disease, and many other dangerous maladies. Is it not wise, then, to check it in the germ? Nothing is more clearly and indisputably established than that Hostetter's Stomach Bitters will eradicate dyspepsia in all its stages. The true policy, however, is to extinguish it in the first stages with the wholesome, powerful, and infallible tonic and alterative. It is easier to quench a spark than a flame, and it is easier to cure dyspepsia when it is first developed than when it has made headway by neglect, and become complicated with other ailments. There is not the shadow of a doubt that the bitters are as directly antagonistic to dyspepsia as water is to fire. There are thousands of cases on record proving this fact. The remedy is safe and agreeable. All the liquors of commerce prescribed as stimulants leave a sting behind. But the sting is taken out of the spirituous basis of this great remedy by vegetable medication, and, moreover, the stimulant thus medicated is of exceptional purity. Of all tonics taken as safeguards or remedies for fever and ague, bilious remittent, and other fall epidemics, it is the only one that can uniformly be depended upon.

NEW YORK
LIFE INSURANCE COMPANY!
PURELY MUTUAL!
ASSETS.....$17,000,000!
ISSUED 9,995 POLICIES IN 1870.
Insuring Over $27,000,000!
WM. B. BEERS, Vice President and Actuary. MORRIS FRANKLIN, President.

AMONG THE ADVANTAGES OFFERED BY THE NEW YORK LIFE INSURANCE COMPANY are—

1st. PURE MUTUALITY, so that *the entire surplus earnings* over the actual cost of insurance is returned to the policy holders who are the only members.

2d. AGE, having been organized in 1845. It has the benefit of the experience of a quarter of a century, and members are thus guaranteed from all doubtful *experiment* in the method of conducting its business.

3d. STABILITY AND PERPETUITY shown by the accumulation of a capital of *Seventeen Millions of Dollars*, after paying all losses promptly, and returning large dividends to its members. It has now an income of over *Seven Millions of Dollars*, and the interest on its investments, with premium on gold, &c., has been sufficient during the past two years to pay accruing losses.

4th. NON-FORFEITURE OF POLICIES. It *originated* the system of non-forfeiture of policies, and to it the public are indebted for a feature so favorable to the insured.

5th. SUICIDE does not cause a forfeiture of the policy, that being considered an evidence of insanity, and insanity the result of disease.

6th. DIVIDENDS. Its dividends are declared annually, and are available *immediately as cash in payment of premiums*. Many companies declare their premiums annually, but do not pay them till several years thereafter; others defer their declarations for two, three or four years from the time the policy commences. In this Company a party always has individual which can be used in the payment of the *second and all subsequent annual premiums*.

7th. ITS DIVIDEND SYSTEM is the "Contribution Plan," by which each member is charged with the exact cost of his insurance, and receives back his surplus payments. These dividends can remain with the Company, participating in its earnings, and be used at any subsequent period in the payment of premiums.

8th. LIBERALITY IN SETTLEMENT OF LOSSES. Experience has shown that cases arise where policies, although EQUITABLY claims, are not LEGALLY so. The records of this Company bear many acknowledgements from widows and relatives of deceased members of its liberality and fairness in settlement of all such losses. There being no stockholders in the Company to share its profits, interests adverse to policy-holders cannot possibly arise; the Trustees simply occupying the position of arbitrators between the members; with no inducement to take from one and give to another.

ÆTNA
LIFE INSURANCE COMPANY,
OF HARTFORD, CONN.
FOUNDED IN THE YEAR 1820.
Adopted Mutual System in the year 1861.
ACCUMULATED CAPITAL OVER.....$16,000,000.
ITS ANNUAL INCOME OVER.....5,000,000.
WHOLE NUMBER OF POLICIES ISSUED TO DATE, NEARLY.....100,000.
NUMBER OF POLICIES ISSUED IN 1870.....11,217.

THE ÆTNA RANKS AS ONE OF THE FIRST COMPANIES IN THE LAND!
IN INCOME, IN SOUNDNESS,
IN ASSETS, CHEAPNESS,
IN NUMBER OF POLICIES, PROMPTNESS
IN AMOUNT INSURED, AND SUCCESS.
IN SOLIDITY AND STRENGTH.

THE AMOUNT OF DIVIDEND A COMPANY CAN PAY ITS INSURED, DEPENDS UPON THE RATES charged for insurance, the AMOUNT of business done, the EXPENSE of doing it, the INTEREST on its investments, the CARE exercised in the selection of its risks, and the TIME when such dividends are paid. In regard to these, as also all other points, the ÆTNA is unsurpassed in advantages by any other Insurance Company in the United States.

The *New York Insurance Monitor* says of the Ætna:—"No Life Insurance Company ever achieved so complete a success as this popular institution. Its popularity is altogether unprecedented in the annals of commercial enterprise in this country."

The *New York Independent* says of the Ætna Life:—"It is to-day one of the *soundest* and *most reliable* Insurance Companies in the United States—every dollar of its assets well secured, more than providing for all liabilities; and it eminently deserves a still greater patronage and the unhesitating confidence of the public."

WANTED—AGENTS ($30 PER DAY to sell the HOME SHUTTLE

FINANCE AND COMMERCE.

THURSDAY EVENING, Nov. 16, 1871.

Gold in New York—111.

Portland Legal Tender quotations, 89c, buying, and 90c selling.

Exchange on San Francisco, ½@¾c. prem; on New York, 1¼ @c. prem. Telegraphic transfers on New York, 1½@1¾ @c. prem.

We continue to report a growing ease in our money market, consequent upon a very limited demand for the interior, and, increased remittances from the interior. All regular bank customers have no difficulty in negotiating for all their legitimate requirements at one per cent. per month interest, on loans of from 30 to 90 days. There has been more call during the past week for time loans on approved mortgages, with but few negotiations effected at the banks. On the street there is more inquiry, with a handsome bonus or commission given to those negotiating short loans at one per cent. per month, bringing the rate of interest up to 1½@1¾ per cent. per month, and on time loans the commission paid brings the rate up to 1½@1¾ per cent. The increased demand for time loans is principally owing to the increased inquiry for property. This increased inquiry is based to a great extent on legitimate demand, while some are purchasing with a speculative view, based upon the belief that several very important enterprises in contemplation for next year, both in Holladay's Addition and also on this side, cannot but cause real estate to enhance still further in value.

The steamer *Ajax* had not crossed the bar last night.

The steamer *California* is not expected here until next week.

The steamer *Orizimba* will leave San Francisco for this port to-morrow with passengers and a full cargo of assorted merchandise.

Messrs. Knapp, Grant & Co. write us under date of San Francisco, Nov. 8th, that the brig *Brewster*, to sail from there Nov. 11th for this port, would have a full cargo, mostly of Liverpool Salt; that the ship *Windward* would have a partial cargo; the bark *Rival* would have a full cargo of assorted merchandise.

The steamer *John L. Stephenson* her passage up encountered a heavy storm which carried away one wheelhouse and did other damage to her outside works. We are unable at this writing to learn whether she met with any serious injury, but from reports should judge she had. The cargo between decks is reported more or less damaged by water shipped during the storm, but the extent is not yet ascertained.

The *R. W. Wood* which was reported as having sailed from Honolulu for this port with a cargo of Sugar, was at our latest advices in that port yet, and would remain there until the new crop is on the market, when cargo would be secured and the vessel have quick dispatch for this port.

The North Pacific Transportation Co. has advanced freights $2 per ton on Syrup, on account of the generally bad condition in which it left the vessel and leakage of cargo, owing to the packages leaking. In consequence of this advance in freight, our merchants have advanced prices.

We have obtained the catch of Salmon from two more fisheries, amounting to 2,831 bbls, 1,001 kegs, 87 tierces, 119 qr bbls, 25 kits and 2,700 cases. Amount previously reported, 9,000 bbls and 6,000 cases.

We clip the following from the San Francisco *Commercial Herald* of Nov. 10th:

The demand for Coffee from importers is light, jobbers refusing to sell out their stocks at the advance, hoping for the same on more favorable terms.

The receipts of Eastern Mackerel continue to reach us, and the selling prompt sale at good prices. Market is somewhat bare of Salmon, selling at very low prices. Of Codfish, the last catch of the season is about 175,000 or 200,000 more than last year's catch. This year's catch is, however, superior, and, being cured by the most approved method, command the market, and by many are thought fully equal to the best Provincials.

The demand for Kerosene shows anxiety to realize more than for some time past, and with but moderate trade requirements, prices are inclined to shade off.

The stocks of Eastern Candles are unusually light for the season.

The market is well stocked with News, Book and Flat Cap Paper. Straw Wrapping continues scarce, the Saranac Mill is doing but little for want of water.

Produce Market.

BREAD—Quotable, Soda, 7½@c; Pilot, 7½@c; Butter, Family Line 11½@c; Gloucester, 11½@c; Pilot, extra, 9½@c; Medium, 8½@c; Navy, 6½@c.

WHEAT—Market since our last has continued to drop until to day, when under more favorable shipping advices shippers have entered the market and are offering more. The bark *Helen M.* with her cargo sold in San Francisco for $1.90, is reported as purchased. We quote market at $1 70@1 75 ₱ cental sacked and delivered.

FLOUR—Since our last week's review the market has undergone no change. We are informed of sales to the amount of 4,000 bbls for China orders, to be shipped on the *Windward*. Our millers continue to find an outlet for their surplus in San Francisco. None of the mills are running to full capacity and consequently stocks will hardly accumulate as fast as the previous week. There are several orders from Puget Sound to be filled as soon as the *California* arrives. We quote market for extra standard brands at $7 50 ₱ bbl; superfine, $6 50@7 ₱ bbl; middling brands, $5@6 ₱ bbls.

OATS—Receipts have been and still continue light, with an active demand for all coming forward. The ship *Windward* is reported to have on 500 tons. We quote market at first at $1 50 ₱ cental sacked.

BARLEY—We quote range of the market at $2 @2 25 ₱ cental. Rye has declined higher.

BRAN AND MIDDLINGS—Quotable in lots for Bran $20 per ton; latter at $27 50 per ton, with a very firm market.

CORN MEAL—Jobbing at $47 50 per ton.

HOGS—Advices by telegraph from San Francisco give market a very active one. Large lots shipped from this port. Dealers are only offering for 4½@4¾c. Jobbing by the single box at 5@5½c.

PROVISIONS—Receipts are freer with no changes to notice in the demand is active. We quote market in jobbing lots for Bacon, 14½c; Hams, 10@12c; Shoulders, 11@13c; Lard, in tins, 14@15c; in kegs, 13@14c. Johnson's new, 16c.

FRESH MEATS—We note the following quotations: Beef, 7@8 cts; pork, on foot, 4@5 cts; dressed, 7@8 cts; sheep, $3 25@4 50 ₱ head.

POULTRY—Hens, roosters and chickens, $3 50@4 50 ₱ doz.

BUTTER—Receipts are free and demand lighter. We quote market for jobbing lots in brine, 27½@32½c in firkins, 30c; in whole rolls, 32½@35c Eastern in firkins, 30c.

DRIED FRUITS—Market well supplied with receipts free. We quote market in jobbing lots for Dried Apples, in sacks, 6@6½c ₱ lb; in kegs, 7@7½c. Dried Plums, pitted, 15@15c ₱ lb.

WOOL—None in market. Fine would command 30@33c ₱ lb, as per length of staple and fineness from dirt.

CARD.

I WOULD RESPECTFULLY CALL THE ATTENTION of the public to the fact that I have disposed of my interest in the Billiard Table manufacturing business on this coast to Mr. P. LIEBENEUED, who for the past sixteen years has been in the business in this city.

Mr. Liebenfeld has taken the large building,

571 Market st., bet. First and Second,

Where he will keep constantly on hand the LARGEST and BEST STOCK OF BILLIARD GOODS on this coast.

Mr. Liebenfeld will be the ONLY person in the Pacific States authorized to sell PHELAN'S CUSHIONS and the EUREKA (New Wire) CUSHIONS.
